EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brian J. Pangrle on 10/20/2005.

The application has been amended as follows:

Claims 29,33,38-40 and 49 have been cancelled.

In claim 27, at line 4 of the claim, after "radially therefrom", [to limit] has been deleted and -- in a channel wherein the motion limiter limits-- has been inserted.

In claim 27, at line 5 of the claim, after "motion of the tube", --wherein clearance exists in the channel to allow substantially unrestricted sideways movement of the tube due to thermal expansion of the tube-- has been inserted.

In claim 32, at line 3 of the claim, before "channel", [a] has been deleted and --the-- has been inserted.

In claim 47, at line 7 of the claim, after "radially therefrom", [to limit] has been deleted and -- in a channel wherein the motion limiter limits-- has been inserted.

In claim 47, at line 8 of the claim, after "motion of the tube", --wherein clearance exists in the channel to allow substantially unrestricted sideways movement of the tube due to thermal expansion of the tube-- has been inserted.

In claim 48, at line 3 of the claim, before “channel”, [a] has been deleted and --the-- has been inserted.

In claim 52, at line 4 of the claim, after “radially therefrom”, [to limit] has been deleted and -- in a channel wherein the motion limiter limits-- has been inserted.

In claim 52, at line 5 of the claim, after “motion of the tube”, --wherein clearance exists in the channel to allow substantially unrestricted sideways movement of the tube due to thermal expansion of the tube-- has been inserted.

In claim 53, at line 4 of the claim, after “radially therefrom”, [to limit] has been deleted and -- in a channel wherein the motion limiter limits-- has been inserted.

In claim 53, at line 4 of the claim, after “motion of the tube”, --wherein clearance exists in the channel to allow substantially unrestricted sideways movement of the tube due to thermal expansion of the tube-- has been inserted.

Allowable Subject Matter

Claims 27-28,30-32,34-37,41-48 and 50-55 are allowed.

The following is an examiner’s statement of reasons for allowance: the prior art either taken singularly or in combination fails to disclose a motion limiter attached and extending radially from an inlet tube in a channel wherein the motion limiter limits upward or downward axial motion of the tube, wherein clearance exists in the channel to allow substantially unrestricted sideways movement of the tube due to thermal expansion of the tube. Reference to Lefeber is the closest prior art, however, the prior art does not disclose a clearance in a channel so that the tube is freely to move sideway due to thermal expansion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
